Nearly all Americans (91%)
say bottled water should
be available wherever
other drinks are sold.

Most
Americans
(91%) say
bottled
water
should be
available
wherever
other
drinks are
sold.

Bottled water containers use significantly less plastic than other drinks (9.89 grams vs 23.9 grams for a 16.9oz container). Soft drinks and other beverage containers need to be thicker because of the carbonation and/or bottling processes of those products.

PLASTIC FACTS:

TRANSPARENT TRUTH ABOUT PLASTICS

soft drink plastic containers weigh on average 142% more than bottled water containers

Association for PET Container Resox

Bottled water containers have the least environmental impact compared to all other popular drink packaging.

Consumers want bottled water to be available wherever drinks are sold (91%), and if it's not, most (74%) will choose another packaged beverage that uses much more plastic.

PACK IT OUT

Join together with your generation
to carry out recyclables
from your adventures
when there's no recycling bin.

Pack it out!
— a great reminder to help you remember to keep outdoor spaces clean for the next visitors!
Carry out recyclables and trash when there's no bin in sight.
